

Donald V. Belsito, MD, MBA, FAAD is the Leonard C. Harber Emeritus Professor of Dermatology, Columbia University Irving Medical Center and Clinical Professor of Dermatology, NYU Langone Medical Center. His research interests include occupational dermatoses, contact and atopic dermatitis, and other immune-mediated dermatologic disorders.

Dr. Belsito graduated summa cum laude from Georgetown University and received his medical degree from Cornell University Medical College. After completing an internal medicine residency at Case Western Reserve University Hospital, he undertook his dermatology residency and fellowship in dermatologic immunology at New York University Medical Center. He is a diplomate of the American Board of Internal Medicine, the American Board of Dermatology, and the American Board of Dermatology, Special Qualifying Examination in Dermatological Immunology. In 1999, he completed his MBA at the University of Kansas.

Dr. Belsito is a member and past-President of the North American Contact Dermatitis Group and a founding member and former President of the American Contact Dermatitis Society. He actively participates in several other dermatologic societies including the American Academy of Dermatology, the European Academy of Dermatology and Venereology, the European Society of Contact Dermatitis, the Noah Worcester Society, and the New York Dermatological Society, in which he has served on numerous committees. He is a Team Leader on the Cosmetic Ingredient Review's Expert Panel and is chair of the Expert Panel for Fragrance Safety, independent panels of academic scientists that advise industry on the safe use of cosmetic and fragrance materials, respectively. He has received numerous national and international honors and serves on the editorial boards of *Dermatitis*, *Contact Dermatitis*, *Dermatology & Therapy*, and the *Online Textbook of Dermatology* and previously was on the editorial board of the *Journal of the American Academy of Dermatology*. He is the author of more than 2,000 articles published in peer-reviewed journals and more than 50 invited reviews and textbook chapters.
